ABOUT ME

A Bachelor's degree in Information Systems from Gunadarma University with expertise in information technology (IT). Skilled in data analysis, data processing, and analytical reporting. Capable of working individually and in teams to complete projects. Interested in a career focused on technology and information systems.

EDUCATION

GUNADARMA UNIVERSITY – Depok, West Java

Sep 2021- Aug 2025

S1 Information System – GPA 3.72/4.00

Relevant Subjects: Algorithms & Programming, Database Systems, Operation Systems, Data Structure & Organization, Graphs & Algorithmic Analysis, Data Mining Concepts, Web Based Programming, Object Based Programming, Human & Computer Interaction, and Statistics.

PROJECT / ASSIGNMENT

Final Project – Undergraduate Thesis | Gunadarma University

Apr 2025 – Sep 2025

- Collected and preprocessed WHO anthropometric datasets for children aged 0–60 months to ensure data quality.
- Developed and optimized a multi-class Logistic Regression model, applying SMOTE to address dataset imbalance and StandardScaler for feature scaling.
- Built a web-based prediction application using Flask and MySQL to calculate real-time Weight-for-Height Z-scores (WHZ) and predict child wasting status.

"Scientific Writing" Course Assignment | Gunadarma University

Mar 2024 – Jul 2024

- Developed a web-based retail inventory system in PHP and MySQL to manage real-time stock levels for over 200 items.
- Implemented automated database validation and triggers to dynamically update stock counts during transaction logs.
- Deployed the application with PHP session authorization to secure administrative access and ensure real-time inventory tracking.

Independent Portfolio Projects

- Designed and built a personal website to showcase my data analyst projects, certifications, and resume.
- Created interactive features like project detail pop-ups and filters to make the website easy for visitors to navigate
- Ensured the website is fully responsive and displays beautifully on both mobile phones and desktop screens.

TRAINING AND CERTIFICATION

Data Analyst Certificate – LSP Gunadarma (Accredited by BNSP)

Sept 2025

- Certified professional data analyst validation based on Indonesia's National Occupational Skills Standards (SKKNI).
- Competencies include: Identifying data management needs, collecting and reviewing data, validating data integrity, and determining data objects.
- Skilled in building Business Intelligence solutions and preparing comprehensive analysis results reports for stakeholders.

Technical Certifications – Lepkom Gunadarma

- Certificate of Building Websites Using HTML5
- Creating Business Intelligence
- Data Preparation for Business Processes
- Oracle For Intermediate
- SQL Server For Intermediate
- Oracle For Beginner
- SQL Server For Beginner
- Fundamental DBMS
- Fundamental Web
